

Do not implement any proposal that would lessen Indiana's Telephone Privacy law. We signed to have our number removed from all applicable telemarketer lists in accordance with Indiana law. We do not want that changed. We are paying for our phone line and we want to retain control of who calls us. No changes are needed to satisfy us. We are most pleased with the current system. Indiana's law is working just fine. It's not broke, so don't fix it.
